

TAKE THE STRESS OUT OF TIME-CRITICAL FREIGHT

Meet your delivery deadlines with a choice of transit times backed by reliable, dependable service

Air freight, air charter, and a range of express trucking services with single-source accountability and local support.

PREMIUM FREIGHT DELIVERY MADE SIMPLE

Meet critical deadlines with ease

When you need to meet a freight delivery deadline, no excuses, things can get tense. Honoring your schedule may require multiple steps and multiple transportation modes, all perfectly synchronized. RRD Logistics DLS Worldwide streamlines the process and makes it easy for you with just a single contact. *Not only will we schedule and coordinate all the transportation segments, we'll monitor the entire process and keep you informed every step of the way.*

Air charter, air freight, express truck, or van; whatever it takes to meet your deadline.

Control delivery costs

Premium freight delivery can be very costly, with a strong correlation between time and price. DLS Worldwide, as part of RRD Logistics, a major shipper, understands this first-hand. We will work with you to determine the most cost-effective delivery method based on your deadline:

- same-day
- next-day
- 2-day

Beyond arrival time, transportation costs (and service levels) are also determined by volume. *DLS Worldwide manages a consistently large volume of premium freight, enabling you to leverage our scale for highly-competitive transportation costs.*

Award-winning technology and industry recognized employee education programs.

Outstanding technology and people

Fast, expedient, and the latest technology go hand-in-hand. Realizing this, DLS Worldwide annually invests millions of dollars in updating and enhancing our Transportation Management Systems (TMS) for our customers. *Accessibility and visibility to your freight-in-transit, as well as capturing and reporting on past shipments, is made easy with DLS Worldwide's TMS technology.*

Technology has measurable benefits, but it is only as useful as the people behind it. *DLS Worldwide's local offices are staffed with resourceful, knowledgeable transportation professionals, averaging more than 15 years industry experience.*

With a commitment to keeping current with the latest market trends and technology, our people update their skills and build expertise with continuing education.

RRD Logistics DLS Worldwide has the resources to manage the complexity of air freight and other express delivery services.
